Summary

As a Full-Stack Web Developer and UI/UX Designer, I specialize in building intuitive, user-centered applications using modern technologies like React.js and TypeScript. Recognized for my adaptability, attention to detail, and strong collaboration skills, I excel in delivering innovative solutions that align with user needs and business goals. Driven by curiosity and a passion for problem-solving, I am eager to contribute my expertise to projects while continuously evolving in a dynamic team environment.

Experiences

Software Engineer - *Medoc Health IT Pvt. Ltd.*

Aug 2024 - Present

- Led the development of **2 key applications**, driving alignment with business requirements and objectives, resulting in a **30% increase** in operational efficiency.
- Developed **scalable, high-performance** web solutions, optimizing functionality and improving user interfaces, implementing **20+ features** leading to a **25% reduction in operational downtime**.
- Ensured seamless **integration** with backend systems, maintaining a **99% uptime** while upholding high standards of **code quality** and performance across projects.

Software Intern - *Medoc Health IT Pvt. Ltd.*

Feb 2024 - Aug 2024

- Assisted in the development and maintenance of backend applications, contributing to the delivery of **10+ features**.
- Collaborated with a team to meet deadlines, ensuring **efficient integration** with frontend components.

Projects

Projecify

November - January 2024

Projecify is a project management web app built with Next.js, TypeScript, Prisma, and PostgreSQL. It features task assignment, role-based access, deadline tracking, and an interactive dashboard, demonstrating expertise in full-stack development and user-centric design.

The First Aid

October - November 2024

Developed a medical application for emergency scenarios, integrating a consent management system for secure, real-time data handling, and ensuring a responsive, optimized user experience.

HealthOptima.in

October - Decemeber 2024

Led the development of **HealthOptima**, a healthcare app with blog management features, attracting **400+ users** from **25+ countries**, **4.8k+ page views**, and an average engagement time of **2.5 minutes**. Designed the UI/UX in Figma, ensuring a seamless and user-friendly experience, while driving organic SEO growth.
